上課時間 Time	週四第 2-4 節 (09:00 -12:00)	上課教室 Room	南大 N316		

課程大綱 (Syllabus)

一、 課程說明(Course Description)

The purpose of this course is to introduce recent learning community issues, related theories, and collaboration processes in learning communities. In this course, we will read and discuss the theories and practices of online and physical learning communities and focus on the principles and best practices for facilitating online and face-to-face discussions and collaborative learning.

二、 指定用書(Text Books)

SSCI journal articles

三、 參考書籍(References)

四、 教學方式(Teaching Method)

Lecture; group discussion; presentation of the assigned research topic and issue; collaborative knowledge building.

五、 教學進度(Syllabus)

Week	Topic
1	Course introduction
2	Community of practice
3	Community of inquiry
4	Social presence theory
5	Activity theory
6	Paper presentation and discussion
7	Professional learning community

8	Intercollegiate Activities (no class)
9	Professional development
10	Social-emotional learning
11	Paper presentation and discussion Mid-term report: Individual project
12	Distributed expertise
13	Computer-supported-collaborative-learning
14	Knowledge building and construction
15	Engagement and motivation
16	Paper presentation and discussion
17	Final report: Oral presentation: Research project
18	Submit final report on KF

六、 成績考核(Evaluation)

Classroom participation 20%	Face-to-face and KF participation. Please read the papers and generate an idea, a question, or anything you are interested in on Knowledge Forum before class.
Individual project 15%	Attend a community and write reflective journals to record your observation (people's roles, operations, and activities of the community.) (you can use the models we mention in class to analyze the community)
Presentation 30%	Choose a topic and related journal articles that you are interested in. Introduce the article to the class in weeks 6, 11, and 16. The presenter should provide the paper and post outlines and discussion questions in KF BEFORE Tuesday of the presenting week.
Research project 35%	Please propose a proposal on one of the topics we

discussed in this course.

The proposal should include a title, introduction (background, motivation, purpose), literature review, methodology, action plan, and expected outcomes.
