## Course Aims / Description

#### 1. Primary aim

This course mainly aims to enhance students' listening ability in academic context with useful strategies. In addition, practical listening materials in daily life are provided as supplementary practices. Students are guided from a great variety of listening materials to master contextualized vocabulary and speaking skills. After listening input, students are encouraged to practice expressing opinions with related issues, demonstrating comprehension toward listening materials. Supplementary course materials can be found on eeclass course website. (https://eeclass.nthu.edu.tw/).

Participation in class discussion and activities is required and will contribute to the final grade. Homework may be given daily and will be due in the following week. Students are expected to come to class prepared to discuss designated chapters and assignments. Quizzes will be designed to test students' learning on listening skills. The final report will be designed to incorporate various listening skills covered in this semester.

#### 2. Subsidiary aim

Before taking this class, students should be equipped with intermediate listening ability so as to

consolidate the ability of understanding implied language, effective note-taking, and synthesizing information from different sources. Meanwhile, students will be trained to apply the receptive information from listening for their productive result of discussion on specific academic subjects.
