Course Aims / Description

中高級英文三聽講為一門 2 學分學期課程，為訓練中高級程度之大一學生習得進階主題式英語溝通與表達，強化學生思考、組織及表達的整合技能；並培養學生發現問題、以英語提問並表達意見的能力，經由實境口說與演講訓練，增進學生英語聽力及訓練演說技巧。

This semester-based course is specifically designed to enhance freshman students' listening & speaking competency at the upper-intermediate level. Students are required to prepare the designated passages BEFORE class, ACTIVELY participate in class discussions and complete exercise sections ON TIME.

Listening input: A variety of authentic English-speaking contexts, including university lectures, interviews, podcasts, and classroom discussions not only activate students' background knowledge of the topic, prime them for the authentic and inspirational content they will meet in the thought-provoking TED Talks, but also guide them systematically through strategies and activities to meet future academic, personal or professional goals. Specific and key academic skills are focused in each theme-based unit, where students effectively learn to predict, identify main ideas/details/inferences, take notes and manage lengthy input. Pronunciation is also highlighted as an aid to improving both listening comprehension & speaking fluency.

Speaking output: Presentation skills inspired by the TED speakers give students the techniques & authentic language they need to successfully deliver their own presentations, help them gain the opportunity to personalize the language they learn, and build their confidence in expressing ideas and opinions. Visual/digital literacy will be promoted through lots of infographics and speaking activities designed to involve students working with a partner or in a group. With connected ideas and integrated language skills, students will give individual, pair and group projects/presentation regularly throughout the semester.

The ultimate goals of the course are to encourage students to take charge of their learning and to facilitate their essential 21st century skills—collaboration, communication and critical thinking.
