

E500100 Seminar

Course No.: E500100

Course Title: 書報討論 Seminar

Credit: 1

Time: T5T6 (Tuesdays, 13:20~15:10)

Classroom: R202, Chemical Engineering Building

Instructor: 胡育誠教授 Prof. Yu-Chen Andy HU <yuchen@che.nthu.edu.tw>

<ychu@mx.nthu.edu.tw>

Office: R307, Chemical Engineering Building

Web: <http://www2.che.nthu.edu.tw/~biohu/>

TA: TBA

Course Description:

This is an interdisciplinary course with a series of lectures by guest speakers (professors, scholars, and experts) from research fields related to engineering. This course is designed to provide students with ideas and thoughts on diverse cutting edge research. This course aims to help students develop their own strategic thinking, explore and expand their research interests.

Grading Policy:

Students should attend the class on time, follow COVID-19 precautions measures, participate in Q&A and discussion, and give an oral presentation on subjects of their own choice or related to their majors/research/studies.

- attendance and participation (QA and discussion) 60%
- oral presentation 40%

Syllabus:

Schedule of lectures will be provided in the first class.
