This course is an upper-intermediate level English course aiming to enhance students' English listening and speaking skills. With the course textbook titled "21st century skills: collaboration, communication, and critical thinking", students are able to practice their 4 skills in English through thought-provoking TED Talks. In terms of integrated skills, this course is also designed to develop students' 21st century skills such as collaboration, communication, global awareness, information literacy, and critical thinking. With all the authentic contexts provided in this course, such as university lectures, interviews, podcasts, and classroom discussions, students will be engaged in situational oral and public speaking activities to enhance their communicative and presentational skills.

Learning objectives

- Students will be able to communicate clearly and to collaborate with others in English in class activities.
- Students will be able to work independently and to be self-directed learners after class.
- When being exposed to multimedia presentations of information, students will be able to learn to understand them and determine their effectiveness.
- Students will be able to activate their background knowledge of the topic of the curriculum and connect their own lives to the theme.
- Students will be able to develop their digital literacy skills through online workbooks.
- Students will be able to use critical thinking approaches when processing new information and learn to reflect on and apply that information to a new situation.
- Students are encouraged to take charge of their learning before, during and after the class.

Ethics Statement on Generative Artificial Intelligence

Conditionally open; please specify how to utilize generative AI in course output

Grounded in the principles of transparency and responsibility, this course encourages students to leverage AI for collaboration and mutual learning to enhance the quality of course outputs. In accordance with the published Guidelines for Collaboration, Co-learning, and Cultivation of Artificial Intelligence Competencies in University Education, this course adopts the following policy: Conditionally open

Students must briefly explain how generative AI was used for topic ideation, sentence refinement, or structural reference in the footnotes of the title page or after the reference in their assignments or reports. If usage is discovered without proper disclosure, instructors, the institution, or relevant units have the right to reevaluate the assignment or report or withhold scores. If the course materials or learning resources have been derived from generative AI, the instructor will also indicate this in the slides or orally. Students enrolled in this course agree to the above ethics statement if registering for the class.
